SUMMARY

Software Engineer with experience building scalable, high-performance web applications using **Next.js**, **React**, and **Node.js**. Skilled in developing efficient, maintainable, and user-centric solutions, with hands-on experience in **Retrieval-Augmented Generation (RAG)**, **LangChain**, **Hugging Face**, and **AI-powered applications**.

WORK EXPERIENCE

Apex School of Buisness

June 2026 – Present

Software Engineer

- Developed **B2B and B2C websites** using **Next.js**, **TypeScript**, and **React**, delivering responsive, component-based UIs.
- Integrated **Google Apps Script** to pipe form submission data directly into **Google Sheets**, transforming complex AI-driven sales training content into a responsive, conversion-focused web experience.
- Achieved Lighthouse score of **99 Performance**, **94 Accessibility**, and **91 SEO**.

Rablo Innovate

November 2025 – February 2026

Software Developer

- Served as **Frontend Developer** at Rablo.in; built **30% of core product features** (including dashboards and UI modules) and led their implementation across development, API integration, and deployment.
- Built high-fidelity, scalable, and responsive user interfaces from complex Figma designs using **Next.js** and **TypeScript**.
- Owned frontend architecture, component design, and code quality; conducted code reviews and mentored team members on best practices.
- Integrated backend APIs for authentication, dynamic data handling, and business workflows.
- Optimized frontend performance, achieving a **Lighthouse score of 89** and improving responsiveness across devices.

PROJECTS

RAG chatbot

July 2026 – August 2026

- Developed a **Full-Stack RAG chatbot** using **Next.js**, **FastAPI**, **LangChain**, **Hugging Face LLMs**, and **FAISS** for AI-powered document Q&A.
- Implemented **vector embeddings**, semantic retrieval, and **Tesseract OCR** to improve document understanding and response accuracy.
- Built a **responsive Tailwind CSS interface** with real-time AI streaming and document upload functionality.
